

## Weekly Review

Week 1 ( 1 Feb to 7 Feb) : Collecting data of health insurance policies by manually searching for policy documents. A policy documents usually gives information on **Exclusion, Sub limits, Restoration and Co-Pay**. Policy premiums are usually not found in documents, they can be found in calculators given by them. The remaining data of **Claims Settled** is taken from trusted websites , if possible from IRDAI or from live mint or policy bazaar or other trusted websites.
